

In their own words...

"I learned a lot about astronomy, computing, & research....The workshops helped me realize how much work goes into a major and how to get started."

-Amber

"I loved researching, learning Linux, and getting personal help from my Pre-MAP instructor!"

-Amy

"You were a great way for freshmen like us to get involved here at the UW! Pre-MAP opened my eyes to careers in Astronomy."

-Carl

"[Pre-MAP] gave us a chance to see what researching Astronomy is all about... it was the most memorable experience ever!!

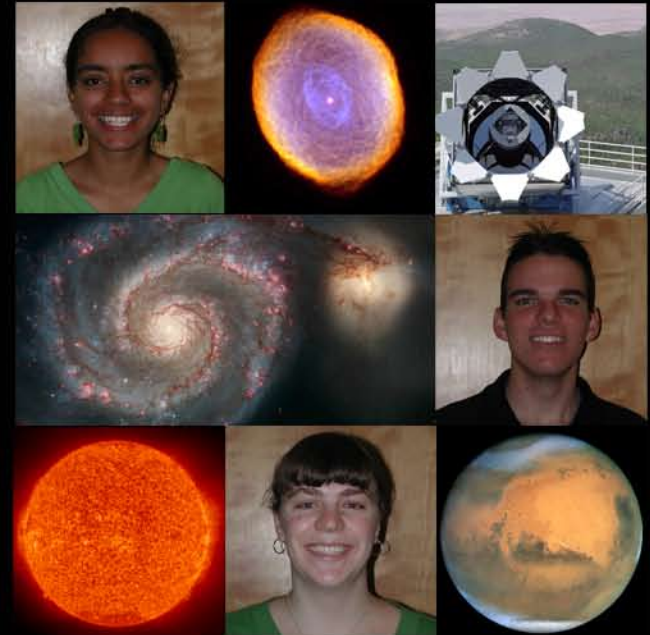

-Virginia

Pre-MAP's Benefits

- **Cutting-edge research:**
Learn astronomical techniques, experience the excitement of scientific discovery!
- **Advising and mentorship:**
Get help on choosing classes, scholarships, navigating the UW, and more!
- **Great friends:**
Be part of a small, close-knit group of exceptional students, get to know the department and the faculty!!

Interested in Astronomy?

Pre-MAP

A program for first-year underrepresented students in Astronomy at the UW
